Mail Check to:

The Bread Bakers Guild of America

P.O. Box 8679

Cranston, RI 02920

The work of our past, present, and future is possible because of partners like you. Together we can ensure that our favorite neighborhood bakeries thrive and continue to enrich our communities and our appetites.

The Bread Bakers Guild of America supports the craft, culture, and business of artisan baking through education, training, and community building. Our 2000+ members are bakery owners, bakers, ingredient and equipment suppliers, educators, students, and others who are committed to producing great baked goods and to the health of our businesses, workers, and communities. Through our classes, events, and networking opportunities our members refine their baking skills, improve business operations, grow careers, and connect to a supportive peer network.

With your tax-deductible gift, we can:

- Provide relevant and meaningful education in the business of baking, as well as baking techniques, theory, and science.
- Support bakery owners in building resilient and sustainable businesses.
- Better connect to working production bakers and provide them with tools and resources to grow a career in the baking industry.
- Attract and retain talent to our industry.
- Cultivate diversity in our programs and membership: diversity of instructors and students, diversity in subject matter, and regional diversity.
- Curate community and create networks across bakeries and bakers.
